Series 7, Series 65, Series 66,  
Personal P&C, Commercial P&C**

Students can purchase access to the webinars either during course enrollment or within the course after enrollment.

**ExamFX Course Tips**

- When you first login, be sure to explore the course prior to jumping into the content. You'll notice a "Getting Started Demo" in the top right corner – this is a great tool for familiarizing yourself with the course and content.
- Read every chapter and pass every chapter quiz. You'll want to take some light notes on your reading before re-taking a quiz.
- If you get a 70% or greater, move on to the next chapter.
- After you've completed and passed all chapters, move on to the Simulated Exams.
- After completing a Simulated Exam, print out (or save) the breakdown of what areas you missed.
- Use the Focused Review section of your course after completing each Simulated Exam to determine areas of the course that you need to devote more study time. \*Be certain to review the areas highlighted in red and yellow before testing again.
- Passing your Simulated Exam will unlock your Guarantee Exam. However, it is highly recommended that you pass the Simulated Exam with an 80% or greater before moving on to the Guarantee Exam. You only have 2 chances to pass the Guarantee Exam.
- Continue to study up until test day (do not take more than a 3 day break).
- Pass the Guarantee Exam with an 80% or greater within 3 days prior to taking the state exam.

**Bottom Line:** We guarantee you will pass your exam on the first attempt. If you do not pass the state exam within three days after scoring 80% on the Guarantee Exam, we will refund the cost of the course, when provided with a copy of the exam results and access code.
